## PROFILE

Seeking an opportunity to learn from seasoned professionals, enhance my knowledge, and refine my skills while contributing as an asset to the organization. Eager to be part of a dynamic team and make a meaningful impact in a collaborative environment.

## PROJECTS

## My-Portfolio

- Created and developed my personal portfolio from scratch using HTML, CSS, and JavaScript. This portfolio effectively showcases my skills, projects, and experiences in a visually appealing and interactive manner. It demonstrates my web development proficiency and creativity, offering a comprehensive view of my professional journey.

## MH-Travel

- Created a tourist website for Maharashtra using HTML, CSS, and JavaScript.
- The website categorizes tourist destinations by district.
- Provides in-depth information about famous attractions in each district.
- Offers step-by-step guidance on how to reach these picturesque locations.

## Amazon Clone

- The Amazon Clone project, crafted by me using HTML and CSS, replicates Amazon's homepage layout. While it's not fully responsive yet, it closely mimics Amazon's visual style and incorporates interactive elements such as hover effects and click interactions.
